Meeting

Philip Tibom
Hossein Hussain
Daniel Olsson

2016-02-29

1 Contents of this meeting

- Completed from last meeting.
- Any issues?
- Decision on implementing new technologies.
- What to do until next meeting.

2 What has been completed

Tasks from 2016-02-25

- ~~Completed first version of a database. // Generated from model.~~ (Completed)
- ~~Base models from the UML. // Hossein with some help from Philip~~ (Completed)
- Simple tests to make sure the DB & model works. // Philip (Delayed, partially done)
- ~~Base page with simple UI. // Daniel~~ (Completed)

3 Issues

For several reasons the DB tests has been delayed. It will however not stop our progress. As they will be completed within a day or two.

4 Decisions on implementing new technologies

We find that the HTML/CSS framework Bootstrap fits our needs. Primefaces has a theme of Bootstrap that integrates via Maven.

5 Todo until next meeting

Next meeting scheduled at 2016-03-03.

Todo

- Produce a design in Photoshop. // Daniel
- Produce HTML and JSF templates. For the main page. // Daniel
- Produce BackingBeans. Hook them to EJBs // Hossein
- Produce querys that search for hotels & returns them. // Philip

Hopefully a travel search should work by this meeting.
